

# Open Awards Qualification Unit

This unit forms part of a regulated qualification.

## 1 Unit Details

Unit Title:	Producing Internal Solid Plastering Finishes in the Workplace
Unit Reference Number:	R/616/6567
Level:	Level 2
Credit Value:	22
Minimum GLH:	73

## 2 Learning Outcomes and Criteria

Learning Outcome (The Learner will):	Assessment Criterion (The Learner can):
1. Interpret the given information relating to the work and resources when producing internal solid plastering finishes	1.1 Interpret and extract information from drawings, specifications, schedules and manufacturers' information
	1.2 Comply with information and/or instructions derived from risk assessments and method statement
	1.3 State the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented
	1.4 Describe different types of information, their source and how they are interpreted in relation to: a) drawings b) specifications c) schedules d) manufacturers' information e) regulations governing buildings

<p>2. Know how to comply with relevant legislation and official guidance when producing internal solid plastering finishes</p>	<p>2.1 Describe their responsibilities under current legislation and official guidance whilst working:</p> <ul style="list-style-type: none"> <li>a) in the workplace</li> <li>b) below ground level</li> <li>c) at height</li> <li>d) with tools and equipment</li> <li>e) with materials and substances</li> <li>f) with movement/storage of materials by manual handling and mechanical lifting</li> </ul> <hr/> <p>2.2 Describe the organisational security procedures for tools, equipment and personal belongings in relation to site, workplace, company and operative</p> <hr/> <p>2.3 State what the accident reporting procedures are and who is responsible for making reports</p>
<p>3. Maintain safe working practices when producing internal solid plastering finishes</p>	<p>3.1 Use personal protective equipment (PPE) and access equipment/working platforms safely to carry out the activity in accordance with legislation and organisational requirements when producing internal solid plastering finishes</p> <hr/> <p>3.2 Explain why and when personal protective equipment (PPE) should be used, relating to producing internal solid plastering finishes, and the types, purpose and limitations of each type</p> <hr/> <p>3.3 State how emergencies should be responded to in accordance with organisational authorisation and personal skills when involved with fires, spillages, injuries and other task-related hazards</p>
<p>4. Select the required quantity and quality of resources for the methods of work to produce internal solid plastering finishes</p>	<p>4.1 Describe the characteristics, quality, uses, limitations and defects associated with the resources in relation to:</p> <ul style="list-style-type: none"> <li>a) undercoat and finishing plasters, sands, limes, cement and additives</li> <li>b) beads and trims, scrim and tapes</li> <li>c) manufactured boards and expanded metal lath (EML)</li> <li>d) hand and/or powered tools and equipment</li> </ul> <hr/> <p>4.2 Select resources associated with own work in relation to materials, tools and equipment</p> <hr/> <p>4.3 State how the resources should be used correctly, how problems associated with the resources are reported and how the organisational procedures are used</p> <hr/> <p>4.4 Outline potential hazards associated with the resources and method of work</p>

	4.5	Describe how to calculate quantity, length, area and wastage associated with the method/procedure to produce internal solid plastering finishes
5. Minimise the risk of damage to the work and surrounding area when producing internal solid plastering finishes	5.1	Protect the work and its surrounding area from damage
	5.2	Minimise damage and maintain a clean work space
	5.3	Describe how to protect work from damage and the purpose of protection in relation to: <ul style="list-style-type: none"> <li>a) general workplace activities</li> <li>b) other occupations</li> <li>c) adverse weather conditions</li> </ul>
	5.4	Dispose of waste in accordance with legislation
	5.5	State why the disposal of waste should be carried out in relation to the work
6. Complete the work within the allocated time when producing internal solid plastering finishes	6.1	Demonstrate completion of the work within the allocated time
	6.2	State the purpose of the work programme and explain why deadlines should be kept in relation to: <ul style="list-style-type: none"> <li>a) types of progress charts, timetables and estimated times</li> <li>b) organisational procedures for reporting circumstances which will affect the work programme</li> </ul>
7. Comply with the given contract information to produce internal solid plastering finishes to the required specification.	7.1	Demonstrate the following work skills when: <ul style="list-style-type: none"> <li>a) measuring</li> <li>b) marking out</li> <li>c) preparing</li> <li>d) mixing</li> <li>e) applying</li> <li>f) finishing</li> </ul>
	7.2	Prepare materials and apply internal plasterwork to contractor's working instructions: <ul style="list-style-type: none"> <li>a) one-coat work (finishing plasters)</li> <li>b) two-coat work</li> <li>c) internal and external angle</li> <li>d) reveals, cills and soffits (door and/or windows)</li> <li>e) expanded metal lath (EML) strips.</li> </ul>

- 7.3 Describe how to apply safe work practices, follow procedures, report problems and establish the authority needed to rectify them, to:
- a) prepare backgrounds
  - b) install expanded metal lath (EML)
  - c) apply and finish one- and two-coat plasterwork to internal solid backgrounds, EML and manufactured board walls and ceilings
  - d) form internal and external angles, reveals and expansion joints
  - e) mix plaster
  - f) work at height
  - g) use hand tools, power tools and equipment

---

7.4 Safely use and store hand tools, portable power tools and ancillary equipment

---

7.5 State the needs of other occupations and how to communicate within a team when producing internal solid plastering finishes

---

7.6 Describe how to maintain the tools and equipment used when producing internal solid plastering finishes
