

## Micro-credentials

Micro-credentials are short, targeted learning programmes (typically under 10 hours) designed to recognise the specific skills and competencies needed today. Highly focused on one area of study, our micro-credentials allow you to:

- rapidly respond to evolving industry demands
- local learning needs
- your organisations' requirements.

Whether you're an employer aiming to upskill your team or a training provider growing your portfolio, our micro-credentials are designed to fit your goals. Choose the route that works best for you:

1. Recognise your existing training
2. Develop your own bespoke course
3. Choose one of our existing micro-credentials
