Delivering this Qualification

Becoming a Provider

To deliver this qualification you must be a recognised Open Awards Provider. For more information, head to our website or contact the team on 0151 494 2072.

How to Deliver

To request to deliver this qualification, please login to [the Portal](#) and then click on 'Tracking' and 'Initiate a Workflow'. You will then need to select 'Apply to Deliver Regulated Qualification(s)'. For support with this process, please see the following document in the Portal 'Provider Portal Guidance – Qualification Approval' or contact the team on customerservices@openawards.org.uk or 0151 494 2072.

Registering Learners

Once you are ready to deliver this qualification, you will need to register your learners in line with the timescales below:

Short courses (15 weeks or less) within 25 working days of the course start date.
Full, year-long courses (over 15 weeks) within 60 working days of the course start date.

You will need to register your learners via the Open Awards [portal](#).

Quality Assurance and Standardisation

Delivery of this qualification must be done so in accordance with Ofqual regulatory guidelines and in line with Open Awards' quality assurance processes. Please see our website for more information.

Provider Staff Requirements

It is expected that Providers will have occupationally competent staff with relevant subject knowledge and/or sector experience for their role in the delivery of the units/qualifications being offered.

This qualification would benefit from tutor experience in the industry but there is considerable unit content that does not necessarily require industry knowledge. Knowledge of CRRU code, use of chemicals would allow the tutor to bring the subject to life with practical examples, but this is not essential.

Providers are responsible for ensuring that their staff are occupationally competent and have access to appropriate training and support. They are also responsible for notifying Open Awards of staff changes.

Assessment

This is a specialist qualification, developed in partnership with BASIS, the CRRU and Killgerm, covering the gamekeeping and rural environment control of rodents.

The qualification is approved by the UK Rodenticide Stewardship Regime - Campaign for Responsible Rodenticide Use (CRRU).

Upon achievement of the Open Awards qualification, learners will fulfil the requirement given on the labels of anticoagulant rodenticides relating to the certification of professional pest controllers. This is set out on the [CRRU UK website](#).

Training and support

Open Awards offers online training and support in Delivery and Assessment and Quality Assurance. These can be accessed, free of charge from the Open Awards [e-shop](#). An everlasting coupon (PLUC code) will be issued to each Provider to gain free access to our online Provider training courses.

Internal Quality Assurance (IQA)

All Providers delivering Open Awards provision must operate rigorous internal quality assurance systems. A Provider must identify how they will internally quality assure and standardise their delivery and assessment before delivering a course.

Internal Quality Assurers should have industry experience although this may not be essential as animal biology and chemical use for example could come from other specialisms.

External Quality Assurance (EQA)

Provider approval compliance monitoring and external quality assurance is carried out by the Open Awards Quality Assurance Team / External Quality Assurers who will confirm that the Provider is assessing to standard and ensure that there are robust quality assurance systems embedded.

Please note: There is no need for a specialist EQA, nor specialist equipment to teach the course.

Standardisation

Providers are required to contribute to national standardisation as requested by Open Awards. Open Awards offers standardisation events that are held throughout the year. Such events will also provide an opportunity to identify and share best practice. Up to date details of training and standardisation events can be found on our website.

For further guidance on Quality Assurance and Standardisation, please refer to the [Provider Handbook](#).

Recognition of Prior Learning and Achievement (RPL)

RPL is a method of assessment that considers whether a learner can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they may already possess. Evidence of learning must be sufficient, reliable and valid.

It is the responsibility of the Provider to inform Open Awards at registration of any exemptions and/or equivalences for which a claim may be made. These claims will be subject to external quality assurance by the Open Awards Quality Assurance Team.

For more information, please see our Recognition of Prior Learning Policy found on the Open Awards [portal](#).
