

Open Awards Qualification Unit

This unit forms part of a regulated qualification.

1 Unit Details

Unit Title:	The Human Body
Unit Reference Number:	M/650/3423
Level:	Entry Level Three
Credit Value:	3
Minimum GLH:	30

2 Learning Outcomes and Criteria

Learning Outcome (The Learner will):	Assessment Criterion (The Learner can):
1. Know about cells in the human body	1.1 Identify: <ul style="list-style-type: none">• Cell nucleus• Cell cytoplasm• Cell membrane
	1.2 State how the structure of human cells relates to their function
2. Know about the human skeleton and muscle systems	2.1 Name major bones and joints in the human body
	2.2 Name major muscles and muscle groups in the human body
3. Know about human dentition	State the number of teeth usual in: <ul style="list-style-type: none">• Adults• Children
	3.2 Identify different types of human teeth and their functions
	3.3 Identify the composition of human teeth
3. Know about the structure of organs and organ systems in the human body	3.1 Identify the structure of organs in the human body

	3.2	Identify the position of the major organs in the human body, including: <ul style="list-style-type: none"> • Heart • Brain • Liver • Lungs • Kidneys • Reproductive organs
	3.3	Outline how organs work in organ systems
4. Know about the human circulatory system	4.1	Name the organs in the human circulatory system
	4.2	State the function of the main organs in the human circulatory system
	4.3	State the role of blood and blood cells in the human circulatory system
	4.4	Identify different types of blood cell in human blood
5. Know about the human digestive system	5.1	Identify organs in the human digestive system, including: <ul style="list-style-type: none"> • Salivary glands • Stomach • Liver • Gall bladder • Pancreas • Small intestine • Large intestine
	5.2	State the role of enzymes in the human digestive system
6. Know about the process of human respiration	6.1	State the role of respiration in the human body
	6.2	Identify the word equation for respiration
	6.3	State sources of glucose for human respiration
	6.4	State how gases are exchanged through the lungs
7. Know about human reproduction	7.1	Identify organs and organ systems in human reproduction
	7.2	Outline the reproductive process in humans
	7.3	Name the stages in the human reproductive cycle
