Introduction

A straightforward and flexible pricing model

Once your organisation is approved by Open Awards, you can apply to deliver qualifications and services from across our portfolio without paying additional qualification approval fees.

You pay a one-off Provider Approval Fee, followed by an Annual Provider Recognition Fee to maintain your approved status.

There is no additional fee for qualification approval, but approval to deliver each qualification may still be required.

You can then register learners on approved qualifications and programmes as required, paying the relevant registration fee for each learner.

There is:

- no additional qualification approval fee
- no minimum number of learners
- no minimum annual registration spend
- no requirement to register learners on every qualification you are approved to deliver.

This gives providers the flexibility to respond to learner, employer and local needs without committing to fixed registration volumes.

Being an Open Awards Approved Provider

Apply to Become an Open Awards Provider

To deliver Open Awards qualifications, units or programmes, your organisation must first become an approved Open Awards provider.

Our experienced team will support you throughout the approval process. If you are ready to deliver Open Awards products and services, complete the New Business Enquiry Form or contact the team on 0151 494 2072 or enquiries@openawards.org.uk.

The **Provider Approval Fee** is a one-off, non-refundable fee that covers the review of your application and approval process. This includes support to:

- review your policies and procedures against Open Awards' requirements
- provide guidance on curriculum planning and delivery
- agree any required actions before approval is granted
- support you throughout the approval process.

Provider Approval Fee	£695
Approved Provider Wall Plaque	£99

Once approved, providers will be invoiced for the **Annual Provider Recognition Fee**, which is pro-rated according to the number of complete months remaining in the academic year (1st August – 31st July).

Annual Provider Recognition Fee

All approved providers pay an annual recognition fee to maintain their approved status.

The fee provides access to ongoing quality assurance and curriculum support, including:

- online quality and compliance training
- curriculum planning guidance
- advice and support from a dedicated Quality and Standards Adviser
- continued access to provider resources and updates.

Annual Provider Recognition Fee	£735

Regulated Qualifications and Courses

Qualification Unit Course Registrations

Open Awards offers a flexible Unit Course model, enabling providers to package individual units into a bespoke course. Unit Courses can be created using either:

- **regulated qualification units** taken from one or more Open Awards qualifications, or
- **Quality Endorsed units**, which are standalone units that do not form part of a regulated qualification.

To create a Unit Course, submit a **Unit Course Request** through the Portal.

Please note that each Unit Course must be created using either regulated qualification units or Quality Endorsed units. A Unit Course cannot contain a mixture of both types of unit.

If you need support creating your course, please contact the team on customerservices@openawards.org.uk or 0151 494 2072.

The registration fee includes learner registration and certification.

Learner Registration (based on Intended Credit Value of course)	£6.25 *per credit, per learner*

There is a minimum registration charge of **£21 per course**.

Where learners achieve credits above the approved credit value of the Unit Course, additional registration fees will be charged at **£6.25 per additional credit**.

Experienced Worker Assessment (EWA)

The Experienced Worker Assessment (EWA) enables experienced workers to demonstrate their occupational competence without completing the full programme of learning for the corresponding vocational qualification.

It is designed for individuals who:

- have substantial experience in the relevant industry or occupation;
- are already carrying out the role competently; and
- have not previously achieved the relevant vocational qualification.

Learners complete an assessment process appropriate to the occupation, which may include knowledge assessment, review of evidence and practical assessment.

The learner registration fee includes registration, assessment and certification. Any applicable resit fees are shown below.

Learner Registration Fees

For some Experienced Worker Assessments, the provider carries out the assessment and Open Awards completes the required quality assurance and certification. These routes have a lower registration fee.

For other occupations, Open Awards carries out the assessment directly using independent assessors. These routes involve a higher fee because the price includes the full assessment service as well as registration and certification.

The table below shows the assessment model and fee for each occupation.

Occupation	Experienced Worker Assessment	Mode of Assessment	Learner Registration Fee *(per learner)*	Resit Fee *(per learner)*
Network Cable Installer (Level 3)	Open Awards Level 3 Network Cable Installer Experienced Worker Assessment (Copper and Fibre)	Provider-assessed and Open Awards quality assured	£119	£15 *(Multiple-Choice Assessment)*

Micro-credentials

Micro-credentials are short, focused learning programmes, typically requiring fewer than 10 hours of learning. They enable organisations to recognise the specific knowledge, skills or competencies required by learners, employers or industry.

Micro-credentials provide a flexible way to:

- respond quickly to emerging industry needs and address local skills priorities
- recognise organisation-specific training
- develop targeted continuing professional development (CPD).

Providers can choose to:

- recognise an existing training programme through an Open Awards micro-credential;
- develop a bespoke micro-credential with Open Awards; or
- deliver one of our existing micro-credentials.

The learner registration fee includes learner registration and certification via a digital badge.

Provider Approval Fee **(if not already approved with Open Awards)**	£125
Bespoke Course Accreditation	£50 *per course*
Approval to add an existing micro-credential course to your account	£0
Learner registration (including issue of digital badge)	£8 *per learner*

Apprenticeship Assessment

Under the reformed model, assessment is incorporated into the apprenticeship programme through a qualification model rather than delivered as a separate End-point Assessment service. Open Awards is developing apprenticeship assessments that align with the requirements of each published assessment plan.

For every apprenticeship Standard, Open Awards will design an assessment approach that clearly identifies:

- the assessment components that may be delivered by the training provider as an Approved Open Awards Provider; and
- the assessment components that must be delivered independently by Open Awards.

This gives providers the flexibility to choose the delivery model that best meets their expertise, capacity and business needs.

Option 1 – Approved Provider Delivery	**Option 2 – Open Awards Assessment Service**
Become an Approved Open Awards Provider and deliver the assessment components identified for provider delivery. Open Awards will provide the assessment materials, guidance, quality assurance and certification, while independently delivering any assessment components that the assessment plan requires Open Awards to undertake. This model requires: • Open Awards Provider Approval • payment of the annual Provider Recognition Fee • learner registration fees for each apprentice.	Providers may instead choose Open Awards to deliver all assessment components on their behalf, including those that could otherwise be delivered by the provider. Under this model: • Provider Approval is not required • there is no Provider Approval Fee • there is no Annual Provider Recognition Fee • Open Awards manages all assessment activities, quality assurance and certification. Because Open Awards delivers the complete assessment service, the learner registration and assessment fee is higher than the Approved Provider model. Assessment fees are published for each apprenticeship standard.
