

Open Awards Qualification Unit

This unit forms part of a regulated qualification.

1 Unit Details

Unit Title:	Know how to Apply Plaster Materials to Internal Surfaces
Unit Reference Number:	R/506/3588
Level:	Level 2
Credit Value:	7
Minimum GLH:	70

2 Learning Outcomes and Criteria

Learning Outcome (The Learner will):	Assessment Criterion (The Learner can):
1. Know how to interpret information related to internal plasterwork	1.1 Describe the purpose of information systems relating to internal plasterwork
	1.2 Describe how to interpret working drawings and specifications correctly for internal applications
	1.3 Describe the methods of reporting discrepancies with the information in accordance with organisational procedures
2. Know how to select and prepare materials for internal plasterwork	2.1 Describe the possible effects of using out-of-date plasters
	2.2 Describe the correct method for storing plasters and the reason for storing in-date order
	2.3 Describe the reasons for ensuring the compatibility of backgrounds and finish plaster
	2.4 List the different materials required for internal plasterwork and describe their limitations
	2.5 Describe the purpose and use of expanded metal lath (EML) narrow widths
	2.6 Describe the purpose and use of metal trims for internal work

3. Know how to apply plaster materials to internal backgrounds	3.1	Describe the method used to prepare background surfaces correctly
	3.2	Describe the correct sequence of operations for mixing plaster materials
	3.3	Describe the correct methods used to apply one- and two-coat plaster to brick, block and plasterboard internal backgrounds
	3.4	Describe how to form internal and external angles correctly
	3.5	Describe why expanded metal lath (EML) is fixed to cover wall plates and internal work
