

# Open Awards Qualification Unit

This unit forms part of a regulated qualification.

## 1 Unit Details

|                          |                                                                            |
|--------------------------|----------------------------------------------------------------------------|
| Unit Title:              | Sort Goods and Materials for Recycling or Disposal in Logistics Operations |
| Unique Reference Number: | R/506/0271                                                                 |
| Level:                   | Level 2                                                                    |
| Credit Value:            | 3                                                                          |
| Minimum GLH:             | 10                                                                         |

## 2 Learning Outcomes and Criteria

| Learning Outcome (The Learner will):                                                          | Assessment Criterion (The Learner can):                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Know how to sort goods and materials for recycling or disposal in logistics operations.    | 1.1 Explain the relevant organisational policies and procedures for sorting goods and materials for recycling and disposal in logistics operations, that relate to:<br>(a) Health, safety and security<br>(b) Personal Protective Equipment<br>(c) Environmental factors<br>(d) Special requirements<br>(e) Waste management<br>(f) Roles and responsibilities of colleagues. |
|                                                                                               | 1.2 Explain the types of goods and materials that are suitable for recycling and those that are not.                                                                                                                                                                                                                                                                          |
|                                                                                               | 1.3 Identify a minimum of 4 problems that can occur when sorting goods for recycling or disposal.                                                                                                                                                                                                                                                                             |
|                                                                                               | 1.4 Explain appropriate action when dealing with identified problems.                                                                                                                                                                                                                                                                                                         |
| 2. Be able to sort the goods and materials for recycling or disposal in logistics operations. | 2.1 Undertake initial checks to determine suitability of goods and materials for recycling or disposal                                                                                                                                                                                                                                                                        |
|                                                                                               | 2.2 Sort goods and materials correctly.                                                                                                                                                                                                                                                                                                                                       |

- |     |                                                                                                                             |
|-----|-----------------------------------------------------------------------------------------------------------------------------|
| 2.3 | Remove any parts of the goods and materials that are not suitable for recycling and dispose of them correctly.              |
| 2.4 | Handle any parts of goods and materials that are not suitable for recycling and dispose of them correctly.                  |
| 2.5 | Position goods or materials suitable for recycling or disposal into the correct locations.                                  |
| 2.6 | Prepare goods or materials for further processing according to the organisation's specifications for recycling or disposal. |
