

# Open Awards Qualification Unit

This unit forms part of a regulated qualification.

## 1 Unit Details

|                        |                                              |
|------------------------|----------------------------------------------|
| Unit Title:            | Introduction to Environmental Sustainability |
| Unit Reference Number: | L/615/6457                                   |
| Level:                 | Entry 3                                      |
| Credit Value:          | 1                                            |
| Minimum GLH:           | 10                                           |

## 2 Learning Outcomes and Criteria

| Learning Outcome (The Learner will):                             | Assessment Criterion (The Learner can):                                                |
|------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| 1. Know why it is important to support a sustainable environment | 1.1 List three 3 reasons why sustainability is important                               |
| 2. Know the 3 R's of sustainability that can be applied          | 2.1 State the 3 'R's in relation to sustainability                                     |
|                                                                  | 2.2 State one material that can be recycled                                            |
|                                                                  | 2.3 State one material that could be reused                                            |
|                                                                  | 2.4 State how the level of waste material could be reduced in the construction process |
| 3. Understand why it is important to correctly dispose of waste  | 3.1 List 3 hazards that could be caused by waste not being disposed of correctly       |
